

Qube Camera

Event-triggered visual proof

Capture events in high definition

Clearly capture operations and activities on site.

Detect and classify objects automatically

Identifies people, vehicles, equipment, and events

Operate periodically or on event triggers

Auto record emissions, motion or temperature changes

Specifications

Max. Image Resolution
4MP (2688*1520)

Measurement frequency
10 seconds

Battery

Rechargeable supercapacitor (150mAh) with backup battery; ~30 days reserve (typical)

DORI
78.4m/30.8m/15.4m/7.7m

Power Supply
Battery (7.2V, 6400mAh, 46.8Wh)

Connectivity
4G LTE

Working Humidity
0~95% (Non-condensing)

Dimensions
175*111*74 mm

Weather Proof
IP67

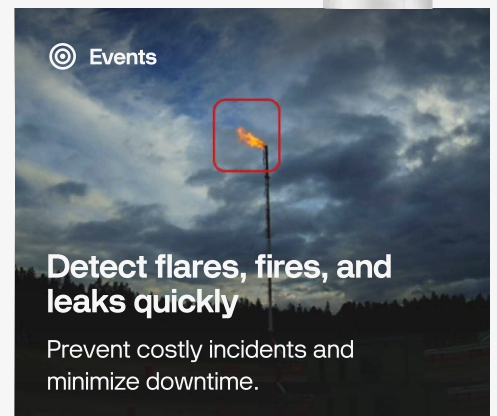

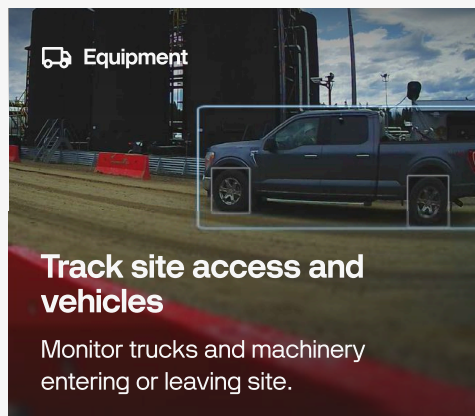

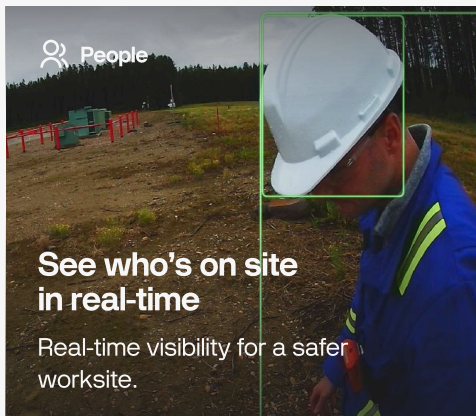

Working Temperature
-20 °C to 60 °C (-4 °F to 140 °F)

Solar panel
5W

Use Cases

Reduce site visits and optimize operations with faster detection, root-cause analysis and lower risk from fires and leaks

Detect. Measure. Reduce.

See how continuous monitoring supports your operations.
